March 23, 2018

Honorable Mayor, Members of the Town Council,
And the Citizens of the
Town of Trophy Club, Texas

The Town's Finance Department has a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) which were audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. The Comprehensive Annual Financial Report (CAFR) for the Town of Trophy Club, Texas for the fiscal year ended September 30, 2017 is hereby issued.

This report consists of management's representations concerning the finances of the Town. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making the representations, management of the Town has established a comprehensive internal control framework that is designed both to protect the Town's assets from loss, theft, or misuse and to compile sufficient and reliable information for the preparation of the Town's financial statements in conformity with GAAP. Internal controls should not outweigh their benefits; therefore, the Town's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute assurance, that the financial statements are free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Town's financial records have been prepared and audited by BrooksWatson & Co., PLLC, Certified Public Accountants, as required by the Town Charter. This CAFR has been prepared based upon those audited records. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Town are presented fairly, in all material respects, for the fiscal year ended September 30, 2017. This independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Town's financial statements for the fiscal year ended September 30, 2017, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Town's MD&A can be found immediately following the report of the independent auditor.

Profile of the Town

The Town of Trophy Club, Texas incorporated in 1985 as Texas' first premiere master planned community, is located in the North Central portion of Texas. This area of the State has proven to be one of the top

growth areas in Texas and the United States. The Town currently occupies a land area of just over 4 square miles and serves a growing population of approximately 12,950. The Town is empowered to levy a property tax on real property located within its boundaries. Trophy Club is also empowered, by State statute, to extend its corporate limits by annexation, which has occurred periodically when deemed appropriate by the governing council of the Town.

Trophy Club has operated as a Home Rule municipality utilizing the Council-Manager form of government since 2004. With the Charter Amendments passed at the May 11, 2013 election policy-making and legislative authority are vested in the Town Council consisting of the Mayor and six other council members. The Town Council is responsible for, among other things, passing ordinances, adopting the budget, appointing boards and committees, and hiring the Town Manager, Town Secretary, Municipal Judge, and Town Attorney. The Town Council is elected on a non-partisan basis. With the Charter Amendments passed at the May 9, 2009 election, Council members are elected from the Town at-large-by-place in the manner, for a term of three (3) years or until their successors have been elected and take office. Each Council member shall be elected to and occupy a place on the Council, such Places being numbered (e.g., Place 1, Place 2, Place 3, etc.). No person shall serve as Mayor or Council member for successive elected full terms totaling more than six years. The Town Manager is responsible for carrying out the policies and ordinances of the Town Council, overseeing the day-to-day operations of the government and for appointing the heads of the various Town departments.

The Town of Trophy Club provides a full range of municipal services including general government, public safety, streets, parks and recreation, planning and zoning, code enforcement, and drainage utilities. Water/wastewater are provided through the Municipal Utility District.

Local Economy

Fast-paced growth is one of the Town's identifying characteristics, identified by both the Dallas Business Journal and Fort Worth Builders Association. Trophy Club's location between DFW and Alliance Airports is ideal for businesses and residents, as well as those who commute to Dallas, Denton, Las Colinas, and Fort Worth. Trophy Club maintains a small-town, picturesque feel while taking advantage of nearby metro areas. The Town offers an outstanding quality of life, with great educational and recreational amenities as well as two 18-hole premier golf courses including the only course designed by Ben Hogan.

The North Texas region possesses diverse research and education institutions, logistics, oil and gas, manufacturing and industrial, and a professional services base that has contributed to the relative stability of the unemployment rate with approximately half of the local workforce employed in management, professional, and related occupations. Figures from the Bureau of Labor Statistics indicate a Denton County unemployment rate of 4.1% while the national unemployment rate is 4.2% as of September 2017.

Trophy Club has worked diligently to position itself for a significant future within DFW and the Alliance corridor. The Town has issued over 1,000 building permits for high end homes over the past 6 years, with another 45 building permits anticipated for Fiscal Year 2018. Additionally, the Town's tax base exceeded $1.5 billion net taxable value in 2017. Business growth continues to be strong in Trophy Club and the Highway 114 region. The Town directly benefits from those businesses locating within the Town or professionals moving to our neighborhoods who work at nearby corporations.

Long-Term Financial Planning

In December of 2015, the Town refunded the Trophy Club Public Improvement District #1 (PID) bonds which will help residents of the PID realize over $16.4M in savings over the life of the debt. In June of 2017 the Town issued $4,445,000 in Certificates of Obligation Bonds for the purpose of streets reconstruction.

Budgeting Process

The Town of Trophy Club uses a program-based budgeting process. Each budgeting unit provides for the expenditures associated with services and supplies appropriated for in the prior year budget. Personnel expenditures are compiled by the Finance department. Any funding request that represents new expenditures and programs must be submitted as a separate supplemental request. Capital items are funded based on a replacement schedule, need, and available resources.

Revenue Projection

The budget revenue projections for the new fiscal year begin early in the current fiscal year. The projections are made by the departments responsible for the revenues with help from the Finance staff. Projections are based upon consultations with state and local agencies, trend analysis, anticipated changes in the local and regional economy, and discussions with directly associated staff members. Although revenue projections are prepared early in the budget process, the budget revenue analysis continues with departmental budget development and extends until the budget is adopted based upon any new information.

Proposed Budget Analysis/Compilation

The Finance Department reviews and compiles a preliminary departmental budget to present to the Budget Team, which is comprised of the Town Manager, Director of Finance, and Budget Manager. During Budget Team discussions, each department director answers questions from the entire group concerning their budget.

Given revenue projections and baseline funding requirements, budget funding changes are made according to necessity and priority. A total recommended funding level is determined and is weighed against available resources.

Proposed Budget Development

The Town Manager shall prepare and submit to the Town Secretary, the annual budget covering the next fiscal year. The Town Manager's proposed budget should assume, for each fund, operating revenues and resources that are equal to, or exceed operating expenditures. The Town Manager's budget message summarizes funding requirements, major changes in programs, and alternatives for funding.

Town Council Budget Study

Each fund's information, supplemental items, capital replacement data, and the five year capital improvement program are presented to the Council during every Council meeting from May until the budget is adopted. This approach allows the Council to discuss items and give direction prior to the proposed budget being submitted.

Capital Program

The Town Manager shall prepare and submit to the Council a five (5) year capital program no later than three months before the final date for submission of the budget. The capital program shall be revised and extended each year with regard to capital improvements still pending or in process of construction or acquisition (Charter Section 9.08).

Public Hearing/Budget Adoption

A public hearing on the proposed budget and two public hearings on the tax rate (if applicable) are held in August and September prior to final budget consideration. At the public hearings, citizens may make formal comments concerning the proposed budget. The public also has the opportunity to attend Town Council budget work sessions from May through budget adoption.

Budget adoption occurs in September after Town Council deliberations and the public hearing(s). The Town Council adopts a tax rate to support adopted funding levels. Pursuant to Town Charter, the budget in place for the preceding year shall remain in place on a month-to-month basis until such time as a new budget has been adopted if no Town Council action is taken before the end of the fiscal year, September 30.

Compilation of Adopted Budget/Budget Maintenance

The adopted budget is compiled and published during the first months of the new fiscal year. The adopted budget in the form of an amended proposed budget is available for public inspection in October. Ledger accounts are prepared for the new fiscal year prior to October 1.

Budget maintenance is a year-round activity of divisions/departments and Finance Department staff. Other spending control mechanisms include monthly review of expenditures by Finance Department staff. During the budget process, departments make revenue and expenditure estimates for the current year.

Finally, program goals, objectives, and measures are evaluated during budget implementation to determine the effectiveness of program activities and levels of appropriate funding for subsequent years.

Relevant Financial Policies

During Fiscal Year 2010, the Town established a Cash Management Program and Policy for the purpose of ensuring adequate internal controls to account for the handling of Town cash and to maintain public trust.

Staff also created the Town's Investment Policy. The purpose of the investment policy was to comply with Chapter 2256 of the Government Code ("Public Funds Investment Act"), which requires the Town of Trophy Club to adopt a written investment policy regarding the investment of its funds and funds under its control. The Investment Policy addresses the methods, procedures, and practices that must be exercised to ensure effective and judicious fiscal management of Trophy Club's funds. The investment policy received the Government Treasurers' of Texas Certificate of Distinction for Investment Policy in June 2011.

The Town Council adopted a fund balance policy in September 2011 which established new fund balance categories (as recommended by Statement No. 54 by the Governmental Accounting Standards Board) and established a minimum unassigned fund balance goal (30% of annual operating expenditures).

In December 2013, Town Council adopted a debt management policy in order to provide parameters for the issuance and management of debt used to construct or acquire major capital assets.

In September 2016 the Town implemented revised purchasing and travel and training policies.

Major Initiatives

The Town Council has continued its strategic planning process to identify goals and objectives for long range planning. Each year, the Council meets in strategic planning retreats to review and refine those

goals. Management Team members utilize the strategic planning documents to help guide their budget planning and service/program implementation.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Trophy Club for its CAFR for the fiscal year ended September 30, 2016. This was the seventh consecutive year that the Town has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not be accomplished without the dedicated services of the entire staff of the Finance Department. We would also like to express our appreciation to all staff members who assisted and contributed to the preparation of this report. Acknowledgment is also given to representatives of BrooksWatson & Co., PLLC, Certified Public Accountants.

Special acknowledgement is given to the Mayor and the members of the Town Council for their support for maintaining the highest standards of professionalism in the management of the Town of Trophy Club finances.

Respectively submitted,

Thomas M. Class, Sr.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and
Members of the Town Council
Town of Trophy Club, Texas:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Trophy Club, Texas (the "Town"), as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express opinions on these financial statements based on our audit.

Management's Responsibility for the Financial Statements

The Town's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the Town as of September 30, 2017 and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information for the general fund, the schedule of changes in net pension liability and related ratios, and the schedule of employer contributions to pension plan be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Trophy Club basic financial statements. The combining and budgetary comparison schedules for the other governmental funds are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information noted above is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and the statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

TOWN OF
TROPHY CLUB

Town of Trophy Club, Texas

MANAGEMENT'S DISCUSSION AND ANALYSIS

September 30, 2017

As management of the Town of Trophy Club, Texas (the "Town"), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended September 30, 2017. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i-iv of this report.

Financial Highlights

- The assets of the Town exceeded its liabilities (net position) at September 30, 2017 by $36,122,879.

- The Town's total net position increased by $1,900,726. The majority of the Town's net position is invested in capital assets or restricted for specific purposes.

- The Town's governmental funds reported combined ending fund balances of $15,332,473 at September 30, 2017, a decrease of $2,450,696 from the prior fiscal year; this includes an increase of $168,652 in the general fund, an increase of $165,869 in the debt service fund, a decrease of $2,479,421 in the capital projects fund, a decrease of $103,448 in the PID No. 1 fund, and a decrease of $202,348 in the nonmajor governmental funds.

- At the end of the fiscal year, unassigned fund balance for the general fund was $4,087,678 or 43% of total general fund expenditures.

- The Town's net pension liability amounted to $2,448,821 as of September 30, 2017.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-Wide Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business. Two statements, the Statement of Net Position and the Statement of Activities, are utilized to provide this financial overview.

The *statement of net position* presents information on all of the Town's assets and liabilities. The difference between the two is reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or

deteriorating. Other non-financial factors, such as the Town's property tax base and the condition of the Town's infrastructure, need to be considered in order to assess the overall health of the Town.

The *statement of activities* presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town include general government, police, emergency medical services, community development, parks and recreation, streets, court, council and administration. Normally, these operations are financed by property taxes, sales taxes, and franchise fees. The business-type activities of the Town include Trophy Club park and storm drainage utility operations.

The government-wide financial statements include not only the Town itself (known as the *primary government*), but also the legally separate component units, 4B Economic Development Corporation and the Tax Increment Reinvestment Zone #1, which the Town is financially accountable. Financial information for these component units are reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 18-23 of this report.

FUND FINANCIAL STATEMENTS

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental* activities in the government-wide financial statements. By

doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities.*

The Town maintains eleven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the debt service fund, the capital projects fund, and the PID, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in a separate section of the report.

The Town adopts an annual appropriated budget for its general, debt service, capital projects, special revenue, Trophy Club Park, and storm drainage utility funds. In addition, an annual appropriated budget is adopted for the Town's discretely presented component units, 4B Economic Development Corporation and the Tax Increment Reinvestment Zone #1. A budget was not adopted for the PID. A budgetary comparison statement has been provided for each fund to demonstrate compliance with their respective budget.

The basic governmental fund financial statements can be found on pages 24-31 of this report.

Proprietary Funds

The Town's proprietary funds are all enterprise funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The Town uses an enterprise fund to account for its Trophy Club park and storm drainage operations. All activities associated with providing such services are accounted for in these funds, including salaries and benefits, supplies and materials, repairs and maintenance, utilities, and other operating expenses. The Town's intent is that costs of providing the services to the general public on a continuing basis is financed through user charges in a manner similar to a private enterprise.

Proprietary financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for Trophy Club Park, and storm drainage utility, both of which are considered to be major funds of the Town.

The basic proprietary fund financial statements can be found on pages 32-35 of this report.

Component Units

The Town maintains the accounting and financial statements for two discretely presented component units. The 4B Economic Development Corporation and the Tax Increment Reinvestment Zone #1 are both discretely presented component units displayed on the government-wide financial statements.

Notes to Financial Statements

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 37-73 of this report.

Other Information

In addition to the basic financial statements, MD&A, and accompanying notes, this report also presents certain Required Supplementary Information (RSI). The required RSI includes a budgetary comparison schedule for the general fund, schedule of changes in the net pension liability and related ratios and schedule of employer contributions for the Texas Municipal Retirement System. RSI can be found after the basic financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted previously, net position may serve over time as a useful indicator of the Town's financial position. For the Town of Trophy Club, Texas, assets exceed liabilities by $36,122,879 as of September 30, 2017, in the primary government.

The largest portion of the Town's net position, $27,901,434 reflects its investments in capital assets (e.g., land, buildings, water system, machinery and equipment, construction in progress), less any debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Town of Trophy Club, Texas's net position of $4,676,837 represents resources that are subject to external restrictions on how they may be used.

At the end of the current fiscal year, the Town of Trophy Club, Texas is able to report positive balances in all reported categories of net position for the primary government, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

Statement of Net Position:

The following table reflects the condensed Statement of Net Position:

	2017			2016		
	Governmental Activities	Business-Type Activities	Total	Governmental Activities	Business-Type Activities	Total
Current and other assets	$ 18,357,721	$ 368,804	$ 18,726,525	$ 19,718,941	$ 285,801	$ 20,004,742
Capital assets, net	71,207,834	1,931,876	73,139,710	64,987,559	1,985,346	66,972,905
Total Assets	89,565,555	2,300,680	91,866,235	84,706,500	2,271,147	86,977,647
Deferred Outflows of Resources	4,574,858	-	4,574,858	5,107,464	-	5,107,464
Current liabilities	3,946,019	168,052	4,114,071	3,744,624	114,046	3,858,670

Current and other assets of governmental activities were $18,357,721 and $19,718,941 as of September 30, 2017 and September 30, 2016, respectively. The decrease of $1,361,220 or 7% was primarily attributable to the utilization of bond funds for the construction of Town Hall Complex. Current and other assets of business-type activities were $368,804 and $285,801 as of September 30, 2017 and September 30, 2016, respectively. The increase of $83,003 or 29% was primarily attributable to the increase in Trophy Club Park charges for services as compared to the prior year. Capital assets of governmental activities increased $6,220,275 or 9%. The increase was mainly attributed to investments in the Town Hall Complex in the current year. Long-term liabilities of governmental activities increased by $2,220,947 or 4% due to the issuance of new debt.

Statement of Activities:

The following table provides a summary of the Town's changes in net position:

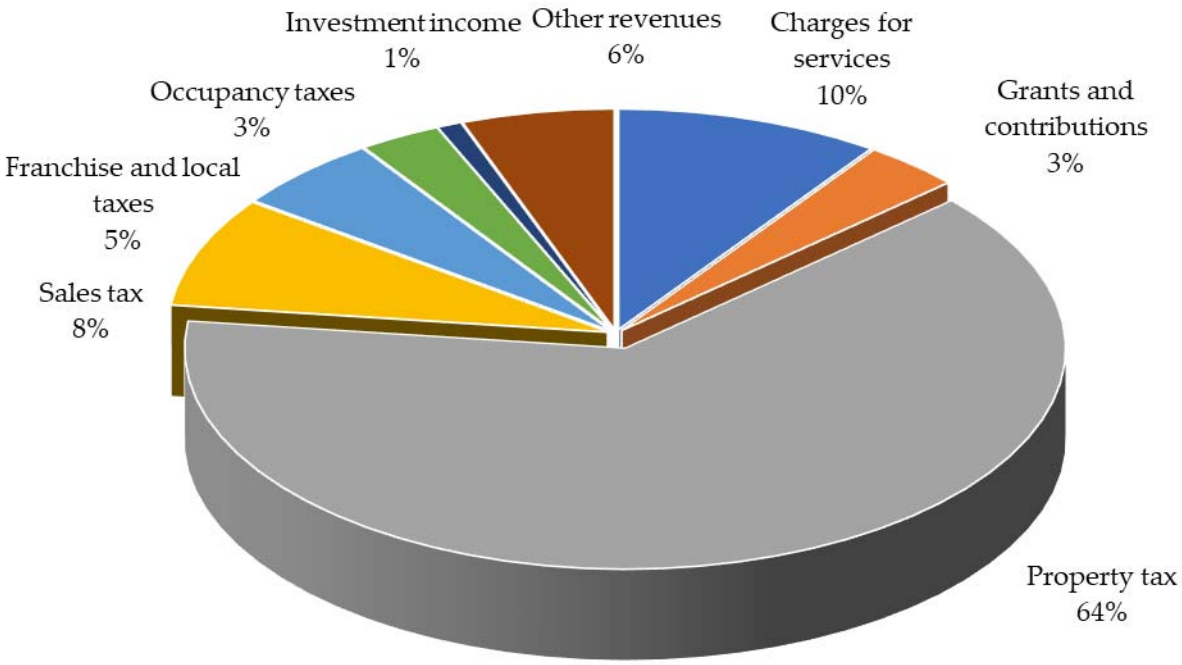
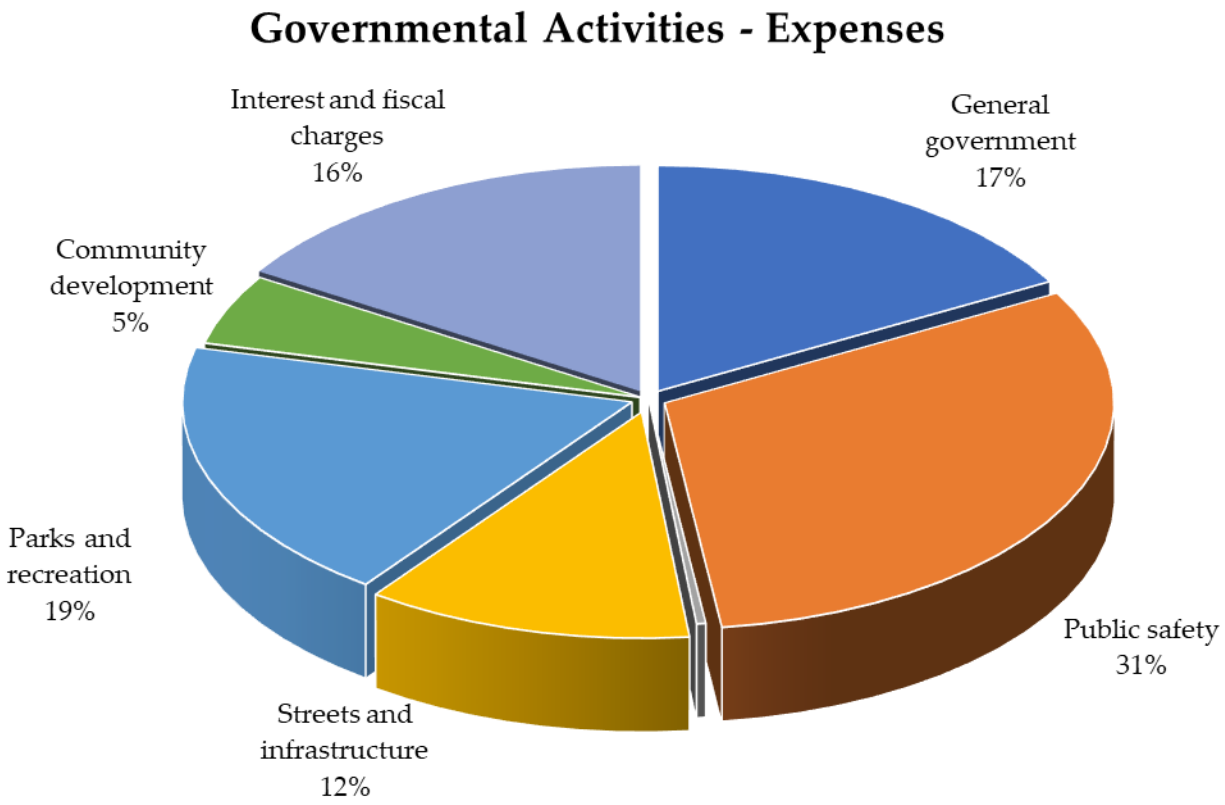
Graphic presentations of selected data from the summary tables are displayed below to assist in the analysis of the Town's activities.

Governmental Activities - Revenues



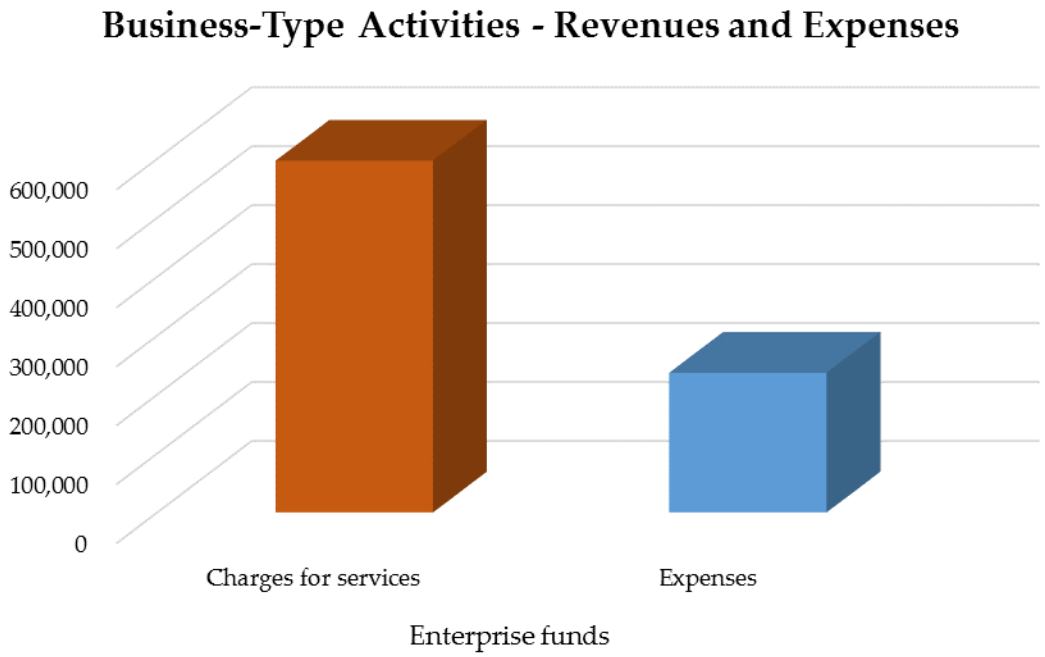
For the year ended September 30, 2017, revenues from governmental activities totaled $16,226,824. Property tax, charges for services, and sales tax are the Town's largest general revenue sources. Overall revenue increased $2,249,744 or 14% from the prior year. Charges for services increased by $363,442 or 30% due primarily to the new revenue stream of the Public Improvement District fire assessment. Operating grants contributions increased by $440,562 or 76% primarily as a result of funds received from Trophy Club Municipal Utility District No. 1 to cover new operating costs pertaining to the fire department. Occupancy taxes increased by $185,115 or 38% due to new hotels opening within the Town. Other revenues increased by $526,019 or 138%, primarily as a result of fees received for park land dedication, which is a nonrecurring transaction. All other revenues remained relatively stable when compared to the previous year.

This graph shows the governmental function expenses of the Town:



For the year ended September 30, 2017, expenses for governmental activities totaled $14,687,933. This represents an increase of $75,420 or 1% from the prior year. The town's largest expense category is public safety, which totaled $4,562,535 at yearend. Public safety increased by $1,021,832 or 29% due to the addition of fire operations to the Town, which are offset by the new funds received from fire assessments and operating contributions from the Municipal Utility District. Public Improvement District activities decreased by $1,175,509 or 96% as a result of prior year nonrecurring financing activities for the refunding of bonds. Streets and infrastructure decreased by $702,651 or 29% as a result of the reduction in ongoing capital projects. Interest and fiscal charges increased $970,168 or 70% primarily due to the issuance of new debt in the current year.

Business-type activities are shown comparing operating costs to revenues generated by related services.



For the year ended September 30, 2017, charges for services by business-type activities totaled $596,520. This is an increase of $129,586 or 28% from the previous year. The increase is primarily attributed to the increase in park revenues compared to the prior year. This was a result of the parks being flooded and closed for a substantial portion of the previous year. Operating grants decreased by $61,106 due primarily to nonrecurring grants received last year to aid in the necessary repairs made to the parks.

Total business-type activity expenses decreased $47,052 or 17% to a total of $236,772. Trophy Club Park expenses totaled $116,477 and remained relatively consistent with the prior year. Storm drainage expenses totaled $120,295 and decreased by $54,204 or 31% compared to the prior year. The decrease is attributed to reduced capital projects during the fiscal year.

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

As noted earlier, fund accounting is used to demonstrate and ensure compliance with finance-related legal requirements.

Governmental Funds - The focus of the Town's governmental funds is to provide information of near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the year.

At September 30, 2017, the Town's governmental funds reported combined fund balances of $15,332,473, a decrease of $2,450,696 in comparison with the prior year. Approximately 94% of this amount, $4,087,678, constitutes *unassigned fund balance,* which is available for spending at the

government's discretion. The remainder of the fund balance is either *nonspendable, restricted or committed* to indicate that it is 1) not in spendable form $91,278 or 2) committed for particular purposes $183,858.

As of the end of the year the general fund reflected a total fund balance of $4,362,814. General fund balance increased by $168,652 during the current year. This increase can be attributed to budgeted expenditures exceeding actual amounts.

The debt service fund had an ending fund balance of $309,043 at September 30, 2017, an increase of $165,869 when compared to the previous year. The increase in the total fund balance was a result of transfers from other funds. During the year, the fund recorded total principal and interest payments of $1,960,454 and property tax revenue of $1,909,067.

The capital projects fund had an ending fund of $6,285,515. The capital projects fund decreased $2,479,421 when compared to the previous year. The decrease was a result of increased capital outlay expenditures compared to the prior year.

The PID No. 1 fund reflected an ending fund balance of $3,765,977. The fund balance decreased $103,448, which is considered minimal.

Proprietary Funds - The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Net position in the Town's largest proprietary fund, the storm drainage utility fund, totaled $1,147,018. Unrestricted net position at the close of the fiscal year for the Town's utility funds amounted to $350,752, an increase of $178,997 over the previous year. Total investment in capital assets, net of related debt was $776,097, and capital assets, net of depreciation totaled $1,931,876.

GENERAL FUND BUDGETARY HIGHLIGHTS

There were various budget amendments approved during the year. Final budgeted revenue was $1,185,421 more than originally budgeted due to expected intergovernmental funds to be received from the MUD to reimburse the Town for new fire department operations.

Total budgeted expenditures increased $1,215,562 compared to the original budget. Budget amendments were primarily due to the added fire department expenditures, as well as some personnel changes. Total budgeted revenues of $10,626,710 were greater than revenues of $10,276,946, resulting in a total negative revenue variance of $349,764. The negative variance was primarily the result of less than expected revenues from sales taxes, franchise taxes, licenses and permits, and intergovernmental revenues. Total budgeted expenditures of $10,713,546 were greater than expenditures of $9,450,360, resulting in a total positive expenditure variance of $1,263,186. The variance in total expenditures was primarily due to positive variances within all general fund departments.

CAPITAL ASSETS

As of the end of the year, the Town's governmental activities funds had invested $71,207,834 in a variety of capital assets and water system infrastructure, net of accumulated depreciation. The Town's business-type activities funds had invested $1,931,876 in a variety of capital assets and infrastructure, net of accumulated depreciation. This investment in capital assets includes land, buildings, vehicles, machinery and equipment, storm drainage system, and infrastructure.

Major capital asset events during the current year include the following:

- Investments in Town Hall Complex totaling $7,012,474.
- Investments in Harmony Park parking lot totaling $384,778.
- Purchase of furniture for the town hall amounting to $311,606.
- Investments in Veteran's Memorial and parking lot totaling $475,979.
- Continued investment in street reconstruction amounting to $202,308
- Purchase of various motor vehicles and equipment totaling $391,560.

More detailed information about the Town's capital assets is presented in note 4.C to the financial statements.

LONG-TERM DEBT

The Town's outstanding general obligation bonds, contractual bonds, and special assessment bonds, net of all premiums and discounts increased by $2,566,270 from the prior year. The total bonds payable at the close of the fiscal year was $54,834,712, net of all premiums and discounts. Of this amount, $48,924,475 (excluding unamortized premium/discount) comprises of bonded debt backed by the full faith and credit of the Town, and the remaining represents bonds secured solely by self-supporting activities.

More detailed information about the Town's long-term liabilities is presented in note 4.D to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Town is approaching residential as well as commercial and retail development build-out. The Town issued fewer residential construction permits than in fiscal year 2016 and budgeted for 45 residential building permits for fiscal year 2018. Residential development is expected to decrease significantly beginning in fiscal year 2019 as the Town reaches substantial build-out.

The Town is expecting commercial development to be at complete build-out over the next five years. HG Supply Co. is expected to open at the end of calendar year 2018. PD-30 is set to start construction in fiscal year 2018 to include an Aloft Hotel, a large multi-family complex, a neighborhood of townhomes, and a large development of retail along SH114.

In fiscal year 2018, General Fund revenues are budgeted to increase 1.6% over fiscal year 2017 estimated revenues while expenditures are budgeted to increase by 7.9% over fiscal year 2017 estimated expenditures.

The fiscal year 2018 budget decreased the ad valorem tax rate to $0.451442 per hundred dollars of assessed value, down from $0.473 in fiscal year 2017.

CONTACTING THE TOWN'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Town of Trophy Club Finance Director, 1 Trophy Wood Drive, Trophy Club, Texas, 76262. This information can also be accessed on the Town of Trophy Club's website at www.trophyclub.org.

RECONCILIATION OF THE BALANCE SHEET TO THE STATEMENT OF NET POSITION GOVERNMENTAL FUNDS

September 30, 2017

Fund Balances - Total Governmental Funds	$	15,332,473
Adjustments for the Statement of Net Position:		
Capital assets used in governmental activities are not current financial resources and, therefore, not reported in the governmental funds.		
Capital assets - non-depreciable		19,786,766
Capital assets - net depreciable		51,421,068
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the governmental funds.		1,070,653
Deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenues) until that time		
Pension (gains) losses		(481,757)
Deferred outflows of resources, represent a consumption of net position that applies to a future period(s) and is not recognized as an outflow of resources (expense/ expenditures) until then		
Pension contributions		433,649
Pension investment earnings		598,890
Pension assumption changes		183,985
Some liabilities, including bonds payable and deferred charges, are not reported as liabilities in the governmental funds.		
Accrued interest		(219,127)
Deferred charges on bond refunding		3,358,334
Bond premium		(4,754,458)
OPEB liability		(104,040)
Net pension liability		(2,448,821)
Non-current liabilities due in one year		(1,772,297)
Non-current liabilities due in more than one year		(47,409,288)
Net Position of Governmental Activities	$	34,996,030

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended September 30, 2017

Amounts reported for governmental activities in the statement of activities are different because:		
Net changes in fund balances - total governmental funds	$	(2,450,696)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		
Capital outlay		9,146,919
Depreciation expense		(2,903,647)
Disposal of capital assets		(22,999)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		886,236
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Compensated absences		(71,484)
Accrued interest		197,249
Pension expense		(201,712)
Other post employment benefits		(15,640)
The issuance of long-term debt (e.g., bonds, leases, certificates of obligation) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when they are first issued; whereas, these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		
Issuance of long term debt		(4,445,000)
Premium of debt issuance		(128,317)
Amortization of deferred loss on refunding		(222,757)
Amortization of premium		290,622
Principal payments		1,567,004
Change in Net Position of Governmental Activities	$	1,625,778

See Notes to Financial Statements.

TOWN OF
TROPHY CLUB

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of Trophy Club (the "Town") is a "home rule town" incorporated in 1985. The Town operates under a Council-Manager form of government and provides the following services as authorized by its charter: council, public safety (police and emergency medical services), parks, public works (public improvements, streets, planning and zoning), and general administrative services.

The accounting and reporting policies of the Town relating to the funds included in the accompanying basic financial statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB). The more significant accounting policies of the Town are described below.

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

B. Financial Reporting Entity

The Town of Trophy Club is a municipal corporation governed by an elected mayor and a six-member council. The accompanying financial statements present the government and its component units, entities for which the government is considered financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Discretely presented component units are reported in separate columns in the government-wide financial statements to emphasize that they are legally separate from the government.

As required by accounting principles generally accepted in the United States of America, these financial statements include the primary government and organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization. A financial benefit or burden relationship exists if the primary government (a) is entitled to the organization's resources; (b) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization; or (c) is obligated in some manner for the debt of the organization.

Some organizations are included as component units because of their fiscal dependency on the primary government. An organization is fiscally dependent on the primary government if it is unable to adopt its budget, levy taxes, set rates or charges, or issue bonded debt without approval by the primary government.

Discretely Presented Component Units

4B Economic Development Corporation

The 4B Economic Development Corporation ("4B") serves all citizens of the Town and is governed by a board appointed by the Town's elected council. The Town can impose its will on the 4B and affect the day-to-day operations of the 4B by removing appointed board members at will. The scope of public service of the 4B benefits the Town and its citizens and is operated within the geographic boundaries of the Town.

Tax Increment Investment Zone #1

The Tax Increment Investment Zone #1 ("TIRZ #1") serves all citizens of the Town and is governed by a board appointed by the Town's elected council. The Town can impose its will on the TIRZ #1 and affect the day-to-day operations of the TIRZ #1 by removing appointed board members at will. The scope of public service of the TIRZ #1 benefits the Town and its citizens and is operated within the geographic boundaries of the Town.

Separate financial statements for the individual component units are not prepared.

Blended Component Units

Crime Control and Prevention District

The Crime Control and Prevention District ("CCPD") was formed under Chapter 363 of the Texas Local Government Code, the Crime Control and Prevention Act. The CCPD is organized exclusively to act on behalf of the Town to finance crime control within the Town. The CCPD is governed by a seven member board appointed by the Town Council. The annual budget and issuance of debt must be approved by the Town Council. Since the CCPD provides services entirely to the Town, it has been reported as a blended component unit.

Public Improvement District #1

The Town of Trophy Club Public Improvement District No. 1 (the "PID") was created pursuant to the Public Improvement District Assessment Act, Subchapter A of Chapter 372, Texas Local Government Code, as amended (the "PID Act") and a resolution of the Town Council on April 16, 2007. The PID was organized to finance certain public improvement District No. 1 Special Assessment Revenue Bonds to assist in the acquisition, construction and maintenance of the public improvements provided for the benefit of the property in the PID. The PID is governed by the Town Council, and accordingly has been reported as a blended component unit.

C. Basis of Presentation - Government-Wide and Fund Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds and the proprietary funds.

As discussed earlier, the government has two discretely presented component units which are shown in separate columns in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The fund financial statements provide information about the government's funds, including its blended component units. Separate statements for each fund category; governmental and proprietary are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and

enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

Governmental Funds

Governmental funds are those funds through which most governmental functions are typically financed. The government reports the following major governmental funds:

General Fund

The General Fund is the main operating fund of the Town. This fund is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from the General Fund.

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of financial resources for the payment of principal, interest and related costs on long-term debt paid primarily from taxes levied by the Town. The fund balance of the Debt Service Fund is restricted to signify the amounts that are restricted exclusively for debt service expenditures.

Capital Projects Fund

The Capital Projects Fund is used to account for funds received and expended for acquisition and construction of infrastructure and other capital assets.

Public Improvement District (PID) No. 1

This fund accounts for bond proceeds, assessments and related debt associated with the issuance of bonds issued by the Town as an agent for the Public Improvement District.

Proprietary Fund Types

Proprietary funds are used to account for activities that are similar to those often found in the private sector. All assets, liabilities, equities, revenues, expenses, and transfers relating to the government's business activities are accounted for through proprietary funds. The measurement focus is on determination of net income, financial position, and cash flows. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues include charges for services. Operating expenses include costs of materials, contracts, personnel, and depreciation. All revenues and expenses not meeting this definition are reported as non-

operating revenues and expenses. Proprietary fund types follow GAAP prescribed by the Governmental Accounting Standards Board (GASB) and all financial Accounting Standards Board's standards issued prior to November 30, 1989. Subsequent to this date, the Town accounts for its enterprise funds as presented by GASB. The proprietary fund types used by the Town include enterprise funds.

The government reports the following major proprietary funds:

Trophy Club Park Fund

The Trophy Club park fund is utilized to account for funds received and expended for the maintenance of park land.

Storm Drainage Fund

The storm drainage fund accounts for the storm drainage utility fee designated for the maintenance of the Town's storm drainage system.

Additionally, the Town reports for the following Non-major governmental funds:

Hotel Occupancy Tax Fund

This fund is used to account for local hotel and motel occupancy tax receipts, as well as expenses (events).

Street Maintenance Sales Tax Fund

Accounts for sales taxes specifically restricted for street improvements.

Court Technology Fund

Accounts for court fees specifically restricted for court technology expenses.

Court Security Fund

Accounts for court fees specifically restricted for court security expenses.

Crime Control and Prevention District Fund

Accounts for sales taxes specifically restricted for crime control and prevention.

Recreation Programs Fund

Accounts for revenues and expenditures associated with recreational programs.

Grant Fund

This fund is used to account for grant monies received by and expended by the Town.

D. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources.* The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All

other revenue items are considered to be measurable and available only when cash is received by the government.

Proprietary, pension and other postemployment benefit trust funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Agency funds have no measurement focus but utilize the *accrual basis of accounting* for reporting its assets and liabilities.

E. Assets, Liabilities, Deferred Outflows/Inflows, and Fund Equity or Net Position

1. Deposits and Investments

The Town's cash and cash equivalents includes cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Because the Town, at its option, can withdraw funds within a twenty-four hour period from TexPool, these investments are considered to be cash equivalents.

State statutes authorize the Town to invest in (1) obligations of the United States or its agencies and instrumentalities; (2) direct obligations of the State of Texas or its agencies; (3) other obligations, the principal of and interest on which are unconditionally guaranteed or insured by the State of Texas or the United States; (4) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than A or its equivalent; (5) certificates of deposit by state and national banks domiciled in this state that are (A) guaranteed or insured by the Federal Deposit Insurance Corporation, or its successor; or, (B) secured by obligations that are described by (1) – (4); or, (6) fully collateralized direct repurchase agreements having a defined termination date, secured by obligations described by (1), pledged with third party selected or approved by the Town, and placed through a primary government securities dealer. The Town's investments are governed by the same state statutes.

All investments are recorded at fair value based on quoted market prices. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties.

2. Fair Value

As of September 30, 2017, the Town has applied Governmental Accounting Standards Board ("GASB") Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.

3. Receivables and Interfund Transactions

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as either "interfund receivables/payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds" in the fund financial statements. If the transactions are between the primary government and its component unit, these receivables and payables are classified as "due to/from component unit/primary government." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds are offset by a nonspendable fund balance account in the applicable governmental fund to indicate they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of any allowance for uncollectible amounts.

4. Inventories and Prepaid Items

The costs of governmental fund type inventories are recorded as expenditures when the related liability is incurred, (i.e., the purchase method). The inventory is carried at historical cost using the first-in/first-out method. Certain payments to vendors reflect costs applicable to future accounting periods (prepaid expenditures) are recognized as expenditures when utilized.

5. Restricted Assets

Certain proceeds of governmental and enterprise fund cash and investments are classified as restricted assets on the statement of net position because their use is limited by applicable bond covenants, legal restrictions, or restrictions in place by outside parties.

6. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government, as assets with an initial individual cost of more than $5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession are recorded at acquisition value on the date of donation. Major outlays for capital assets and improvements are capitalized as projects are

constructed. Interest costs incurred in connection with construction of enterprise fund capital assets are capitalized when the effects of capitalization materially impact the financial statements.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful years.

Buildings	30 Years
Improvements other than buildings	10-30 Years
Improvements other than buildings (streets)	30 Years
Machinery and equipment	7-15 Years
Vehicles	5-10 Years
Water system	25 Years
Infrastructure (storm drainage system)	40 Years

7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows / inflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The government only has three items that qualify for reporting in this category. One example is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results form the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for *deferred inflows of resources*. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes, fines and forfeitures and ambulance fees. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred inflows of resources can also occur at the government wide level due to differences between investment gains and losses realized on pension investments compared to assumption used within the pension actuarial valuation model.

8. Accumulated Vacation, Compensated Time and Sick Leave

It is the Town's policy to permit employees to accumulate earned but unused vacation pay benefits. No liability is reported for unpaid accumulated sick leave. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they are expected to be liquidated with expendable available financial resources, for example, as a result of employee resignations and retirements.

9. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. The long-term debt consists primarily of bonds payable and accrued compensated absences.
Long-term debt for governmental funds is not reported as liabilities in the fund financial statements until due. The debt proceeds are reported as other financing sources, net of the applicable premium or discount and payments of principal and interest reported as expenditures. In the governmental fund types, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures. However, claims and judgments paid from governmental funds are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable available financial resources.

Long-term debt and other obligations, financed by proprietary funds, are reported as liabilities in the appropriate funds. For proprietary fund types, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method, if material. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are expensed when incurred.

The net pension liability is included within long term debt. This liability is valued using an actuarial model and represents the difference between the plan fiduciary net position and the net pension liability consistent with GASB statement no. 68. The portion of this liability presented as a current liability is based on actuarially calculations for estimated future payments of benefits and refunds over the twelve months following yearend.

10. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit

payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

11. Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

12. Fund Balance Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

13. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The governing council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The governing body (Council) has by resolution authorized the finance director to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment. The general fund is the only fund that reports a positive unassigned fund balance amount.

The Town Council adopted a fund balance policy in September 2011 which established new fund balance categories (as recommended by Statement No. 54 by the Governmental Accounting Standards Board) and established a minimum unassigned fund balance goal (30% of annual operating expenditures).

14. Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

F. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

2. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. Under state law, property taxes levied on real property constitute a lien on the real property which cannot be forgiven without specific

approval of the State Legislature. The lien expires at the end of twenty years. Taxes levied on personal property can be deemed uncollectible by the Town.

Property taxes at the fund level are recorded as receivables and deferred revenues at the time the taxes are assessed. Revenues are recognized as the related ad valorem taxes are collected. Additional amounts estimated to be collectible in time to be a resource for payment of obligations incurred during the fiscal year and therefore susceptible to accrual in accordance with Generally Accepted Accounting Principles have been recognized as revenue.

3. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the utility fund, golf course fund, and storm water utility funds are charges to customers for sales and services. The utility fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.

The governmental fund balance sheet includes reconciliation between *fund balance-total governmental funds* and *net position-governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds, are not due and payable in the current period and, therefore, are not reported in the funds.

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental states that, "the issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities."

NOTE 3. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Annual budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) for the general, court technology, court security, street maintenance, hotel/motel tax, crime control and prevention, recreation programs, debt service fund and capital projects, and enterprise funds. The original budget is adopted by the Town Council prior to the beginning of the year. The legal level of control as defined by the Town Charter is the fund level. No funds can be transferred or added which affect the total fund expenditures without Town Council approval. Appropriations lapse at the end of the year. During the fiscal year ended September 30, 2017, final general fund budgeted revenue was projected to be $1,185,421 more than the original budget. Final budgeted expenditures increased $1,215,562 compared to the original budget.

As of September 30, 2017. Expenditures exceeded appropriations at the legal level of control for the Hotel Occupancy Tax fund and the Recreation Programs fund in the amounts of $32,778 and $677, respectively.

A. Restricted Net Position

The Town records restricted net position on amounts with externally imposed restrictions (e.g., through debt covenants or by grantors) or restrictions imposed by law through constitutional provisions or enabling legislation. Total restricted net position for the primary government was $4,676,837. Of which, $37,819 and $399,883, a total of $437,702, is restricted by enabling legislation.

B. Deficit Net Position

The Trophy Club Park fund had a deficit net position of $20,169 as of September 30, 2017. This deficit will be replenished in the subsequent period.

NOTE 4. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Deposits - State statutes require that all deposits in financial institutions be fully collateralized by U.S. Government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a market value of not less than the principal amount of the deposits. The Town's cash deposits at September 30, 2017 and during the year ended September 30, 2017 were entirely covered by FDIC insurance or by pledged collateral held by the Town's agent bank in the Town's name.

Legal and contractual provisions governing deposits and investments

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the Town to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity, allowed based on the stated maturity date for the portfolio, and (8) investment staff quality and capabilities.

The Act also requires the Town to have independent auditors perform test procedures related to investment practices as provided by the Act. The Town is in substantial compliance with the requirements of the Act and with local policies.

As of September 30, 2017, the Town had the following investments:

Investment Type	Carrying Value	Average Maturity (Years)
Certificates of deposit	$ 2,190,774	0.99
External investment pools	11,108,490	0.05
Total fair value	$ 13,299,264	
Portfolio weighted average maturity		0.20

Interest rate risk: In compliance with the Town's Investment Policy, as of September 30, 2017, the Town minimized the interest rate risk, related to current events market turmoil in the portfolio by: limiting the effective duration of security types not to exceed two years with the exception of securities purchases related to reserve funds; structuring the investment portfolio so that securities matured to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the secondary market prior to maturity; monitoring credit ratings of portfolio positions to assure compliance with rating requirements imposed by the Public Funds Investment Act; and investing operating funds primarily in short-term securities, money market mutual funds, or similar government investment pools.

Credit risk: The Town's investment policy limits investments to obligations of the United States, State of Texas, or their agencies and instrumentalities with an investment quality rating of not less than "A" or its equivalent, by a nationally recognized investment rating firm. Other obligations must be unconditionally guaranteed (either express or implied) by the full faith and credit of the United States Government or the issuing U.S. agency and investment pools with an investment quality not less than AAA or AAA-m, or equivalent, by at least one nationally recognized rating service. As of September 30, 2017, all of the Town's purchased investments in

US Agencies Obligations were rated AA+, AAA and Aaa by Standard & Poors, Fitch and Moody's, respectively.

Custodial credit risk – deposits: In the case of deposits, this is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. State statutes require that all deposits in financial institutions be insured or fully collateralized by U.S. government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a market value of not less than the principal amount of the deposits. As of September 30, 2017, the market values of pledged securities and FDIC exceeded bank balances.

Custodial credit risk – investments: For an investment, this is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town's investment policy requires that it will seek to safekeeping securities at financial institutions, avoiding physical possession. Further, all trades, where applicable, are executed by delivery versus payment to ensure that securities are deposited in the Town's safekeeping account prior to the release of funds.

TexPool

TexPool was established as a trust company with the Treasurer of the State of Texas as trustee, segregated from all other trustees, investments, and activities of the trust company. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The advisory board members review the investment policy and management fee structure. Finally, Standard & Poor's rate TexPool AAAm. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard & Poor's, as well as to the office of the Comptroller of Public Accounts for review. At September 30, 2017, the fair value of the position in TexPool approximates fair value of the shares.

LOGIC

Local Government Investment Cooperative ("LOGIC") was organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and operates under the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The Public Funds Investment Act allows eligible local governments, state agencies, and nonprofit corporations of the State of Texas to jointly invest their funds in permitted investments.

LOGIC's governing body is a five-member Board of Directors comprised of employees, officers or elected officials of participant Government Entities or individuals who do not have a business relationship with the Cooperative and are qualified to advise it. A maximum of two advisory

board members represent the Co-Administrators of the Cooperative. At September 30, 2017, the fair value of the position in LOGIC approximates fair value of the shares.

Lone Star Investment Pool

The Lone Star Investment Pool is a public funds investment pool created pursuant to the Interlocal Cooperation Act, Texas Government Code, Chapter 791, and the Public Funds Investment Act, Texas Government Code, Chapter 2256. The objective of the Pool is to maintain the safety of principal, while providing participating government entities with the highest possible rate of return for invested funds. Participants in the Pool own pro rata interests in the underlying assets of the fund in which they participate. A Participant's sole source of payment from its investment in the Pool is the market value of such assets; although the Pool seeks to preserve the value of a Participant's investment, it is possible to lose money by investing in the Pool. At September 30, 2017, the fair value of the position in Lone Star Investment Pool approximates fair value of the shares.

TexCLASS

Texas CLASS is a local government investment pool emphasizing safety, liquidity, convenience and competitive yield. Since 1996, Texas CLASS has provided Texas public entities a safe and competitive investment alternative. Texas CLASS invests only in securities allowed by the Texas Public Funds Investment Act. The pool is governed by a board of trustees, elected annually by its participants. Texas CLASS is rated 'AAAm' by Standard and Poor's Ratings Services. The 'AAAm' principal stability fund rating is the highest assigned to principal stability government investment pools and is a direct reflection of Texas CLASS's outstanding credit quality and management. At September 30, 2017, the fair value of the position in TexCLASS approximates fair value of the shares.

B. Receivables

The following comprise receivable balances of the primary government at year end:

	General	Debt Service	Nonmajor Governmental	Storm Drainage Utility	Total
Property taxes	$ 50,576	$ 14,561	$ -	$ -	$ 65,137
Sales tax	139,478	-	65,965	-	205,443
Franchise taxes	76,491	-	-	-	76,491
Hotel occupancy	-	-	42,975	-	42,975
Municipal court	70,539	-	-	-	70,539
EMS	185,152	-	-	-	185,152
Storm drainage	-	-	-	32,549	32,549
Park services	38,906	-	-	-	38,906
Park Land fee settlement	750,000	-	-	-	750,000
Other	102,477	-	-	-	102,477
Allowance	(129,523)	-	-	-	(129,523)
Total	$ 1,284,096	$ 14,561	$ 108,940	$ 32,549	$ 1,440,146

The following comprise receivable balances of the component units at year end:

	4B Economic Corporation	TIRZ # 1	Total
Sales taxes	$ 66,071	$ 997	$ 67,068
Total	$ 66,071	$ 997	$ 67,068

C. Capital Assets

A summary of changes in governmental activities capital assets for the year end was as follows:

	Beginning Balances	Additions	Retirements/ Reclassifications	Ending Balances
Capital assets, not being depreciated:				
Land	$ 10,446,723	$ 16,946	$ -	$ 10,463,669
Construction in progress	2,700,529	8,134,265	(1,511,697)	9,323,097
Total capital assets not being depreciated	13,147,252	8,151,211	(1,511,697)	19,786,766
Capital assets, being depreciated:				
Buildings	1,993,440	-	46,929	2,040,369
Improvements other than buildings	55,949,137	281,105	1,464,767	57,695,009
Machinery and equipment	2,065,632	576,671	(35,107)	2,607,196
Vehicles	1,178,846	137,932	(115,672)	1,201,106
Water system	5,362,005	-	-	5,362,005
Infrastructure	14,332,062	-	-	14,332,062
Total capital assets being depreciated	80,881,122	995,708	1,360,917	83,237,747
Less accumulated depreciation				
Buildings	785,761	50,899	-	836,660
Improvements other than buildings	20,440,352	1,979,124	-	22,419,476
Machinery and equipment	1,134,603	212,445	(15,338)	1,331,710
Vehicles	936,244	114,221	(112,443)	938,022
Water system	928,837	175,123	-	1,103,960
Infrastructure	4,815,016	371,835	-	5,186,851
Total accumulated depreciation	29,040,813	2,903,647	(127,781)	31,816,679
Net capital assets being depreciated	51,840,309	(1,907,939)	1,488,698	51,421,068
Total capital assets	$ 64,987,561	$ 6,243,272	$ (22,999)	$ 71,207,834

Depreciation expense was charged to governmental functions as follows:

General government	$ 357,815
Emergency medical services	47,796
Information systems	31,568
Police	141,072
Fire	6,884
Parks and recreation	749,575
Community development	28,733
Streets (Infrastructure)	1,540,204
Total Governmental Activities Depreciation Expense	$ 2,903,647

A summary of changes in business-type activities capital assets for the year end was as follows:

	Beginning Balances	Additions	Retirements/ Reclassifications	Ending Balances
Capital assets, being depreciated:				
Infrastructure	$ 2,039,766	$ -	$ -	$ 2,039,766
Machinery and equipment	24,112	-	-	24,112
Total capital assets being depreciated	2,063,878	-	-	2,063,878
Less accumulated depreciation				
Infrastructure	4,219	2,387	-	6,606
Machinery and equipment	74,313	51,083	-	125,396
Total accumulated depreciation	78,532	53,470	-	132,002
Net capital assets being depreciated	1,985,346	(53,470)	-	1,931,876
Total capital assets	$ 1,985,346	$ (53,470)	$ -	$ 1,931,876

Depreciation expense was charged to business-type activities as follows:

Trophy Club Park	$ 2,387
Storm Drainage Utility	51,083
Total Business-type Activities Depreciation Expense	$ 53,470

Also, the discreetly presented component unit, 4B Economic Corporation, held land totaling $2,538,765 as of September 30, 2017.

D. Long-term Debt

The Town periodically issues general obligation bonds and contractual obligations to provide funds for general government purposes. The Town also periodically utilizes notes and capital leases to provide financing for general government purposes. In general, the Town uses the debt service fund and general fund to liquidate governmental long-term liabilities and pension liabilities/OPEB, respectively. The following is a summary of changes in the Town's total long-term liabilities for the year ended September 30, 2017.

	Beginning Balance	Additions	Retired	Ending Balance	Amounts Due Within One Year
Governmental Activities:					
Bonds, notes and other payables:					
General Obligation Bonds	$ 12,375,000	$ -	$ (925,000)	$ 11,450,000	$ 810,000
Certificates of Obligation	7,961,000	4,445,000	(338,000)	12,068,000	653,000
Special Assessment Bonds	25,710,479		(304,004)	25,406,475	77,898
Less deferred amounts:					
For premiums	4,916,763	128,317	(290,622)	4,754,458	-
Total Bonds Payable	50,963,242	4,573,317	(1,857,626)	53,678,933	1,540,898
OPEB Liability	88,400	15,640	-	104,040	-
Net pension liability	2,835,287	-	(386,466)	2,448,821	-
Compensated absences	185,626	260,934	(189,450)	257,110	231,399
Total Governmental Activities	$ 54,072,555	$ 4,849,891	$ (2,433,542)	$ 56,488,904	$ 1,772,297
			Long-term liabilities due in more than one year	$ 54,716,607	
Business-Type Activities:					
Certificates of Obligation	$ 1,275,000	$ -	$ (145,000)	$ 1,130,000	$ 150,000
Less deferred amounts:					
For premiums	30,200	-	(4,421)	25,779	-
Total Business-Type Activities	1,305,200	-	(149,421)	1,155,779	150,000
			Long-term liabilities due in more than one year	$ 1,005,779	
Component Unit Activities:					
Certificates of Obligation	$ 2,585,000	$ -	$ (100,000)	$ 2,485,000	$ 100,000
Less deferred amounts:					
For discounts	(25,206)		1,332	(23,874)	
Total Component Unit Activities	$ 2,559,794	$ -	$ (98,668)	$ 2,461,126	$ 100,000
			Long-term liabilities due in more than one year	$ 2,361,126	

Long-term liabilities applicable to the Town's governmental activities are not due and payable in the current period and accordingly, are not reported as fund liabilities in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. The Town intends to retire all of its general long-term liabilities, plus accrued interest, from property taxes and other current revenues from the debt service fund as has been done in prior years. The proprietary fund type long-term debt will be repaid, plus accrued interest, from operating revenues of the respective fund. Long-term debt at year end was comprised of the following debt issues:

Governmental Activities:

Description	Interest Rate	Year of Issue	Final Maturity	Average Annual Payment	Original Amount	Balance 9/30/2017
General Obligation Bonds:						
Improvements	4.00 - 4.10 %	2007	2018	$ 296,364	$ 3,260,000	$ 165,000
Improvements	3.00 - 4.13 %	2010	2030	250,000	5,000,000	3,760,000
Refunding	2.00 - 4.00 %	2010	2022	232,500	2,790,000	980,000
Refunding	2.18 %	2015	2025	203,000	2,030,000	1,640,000
Improvements	2.00-3.00 %	2016	2036	262,250	5,245,000	4,905,000
						$ 11,450,000
Certificate of Obligations:						
Combination Tax and Revenue-Series 2004	3.50 - 4.75 %	2004	2024	$ 32,500	$ 650,000	$ 233,000
Certificates of Obligation Series 2013	2.50 - 3.25 %	2013	2028	86,667	1,300,000	1,085,000
Certificates of Obligation Series 2014	2.00 - 3.75 %	2014	2034	125,000	2,500,000	2,220,000
Certificates of Obligation Series 2016	2.00-4.00 %	2016	2036	210,500	4,210,000	4,085,000
Certificates of Obligation Series 2017	2.50-3.00 %	2017	2037	222,250	4,445,000	4,445,000
						$ 12,068,000

Business-type Activities:

Description	Interest Rate	Year of Issue	Final Maturity	Average Annual Payment	Original Amount	Balance 9/30/2017
Certificates of Obligation Series 2013	2.50 - 3.00 %	2013	2024	$ 154,545	$ 1,700,000	$ 1,130,000
						$ 1,130,000

Component-Unit Activities:

Description	Interest Rate	Year of Issue	Final Maturity	Average Annual Payment	Original Amount	Balance 9/30/2017
Certificates of Obligation Series 2015	1.00 - 4.75 %	2015	2035	$ 134,500	$ 2,690,000	$ 2,485,000
						$ 2,485,000

In June, 2017 the Town issued $4,445,000 in Certificates of Obligation. Proceeds from the sale of certificates are to be used for the purpose of providing funds for the design, development and construction to extend and expand parking facilities for Town public parks, including driveway improvements and related storm drainage improvements, and including the acquisition of land to expand streets, thoroughfares, sidewalks, brides and other public ways of the Town.

The annual requirements to amortize long-term debt outstanding of governmental activities as of September 30, 2017, are as follows:

Governmental Activities

Year Ending September 30,	General Obligation Bonds Principal	General Obligation Bonds Interest	Total Requirements
2018	$ 810,000	$ 351,933	$ 1,161,933
2019	835,000	326,311	1,161,311
2020	870,000	302,983	1,172,983
2021	890,000	276,287	1,166,287
2022	925,000	246,891	1,171,891
2023-2027	3,445,000	851,166	4,296,166
2028-2032	2,445,000	355,738	2,800,738
2033-2037	1,230,000	84,925	1,314,925
Total	$ 11,450,000	$ 2,796,234	$ 14,246,234

Year Ending September 30,	Certificate of Obligation Bonds Principal	Certificate of Obligation Bonds Interest	Total Requirements
2018	$ 653,000	$ 390,434	$ 1,043,434
2019	778,000	338,776	1,116,776
2020	848,000	314,683	1,162,683
2021	563,000	288,397	851,397
2022	588,000	269,358	857,358
2023-2027	3,128,000	1,068,284	4,196,284
2028-2032	3,005,000	634,769	3,639,769
2033-2037	2,505,000	199,925	2,704,925
Total	$ 12,068,000	$ 3,504,626	$ 15,572,626

Year Ending September 30,	Special Assessment Bonds Principal	Special Assessment Bonds Interest	Total Requirements
2018	$ 77,898	$ 2,058,884	$ 2,136,782
2019	25,577	2,141,204	2,166,781
2020	1,278,000	911,781	2,189,781
2021	1,343,000	886,081	2,229,081
2022	1,403,000	855,706	2,258,706
2023-2027	8,202,000	3,600,880	11,802,880
2028-2032	10,570,000	2,077,306	12,647,306
2033-2037	2,507,000	126,000	2,633,000
Total	$ 25,406,475	$ 12,657,842	$ 38,064,317

The annual requirements to amortize long-term debt outstanding of business-type activities as of September 30, 2017, are as follows:

Business-Type Activities

Year Ending September 30,	Certificates of Obligation		Total
	Principal	Interest	Requirements
2018	$ 150,000	$ 28,088	$ 178,088
2019	155,000	24,275	179,275
2020	155,000	20,400	175,400
2021	160,000	16,462	176,462
2022	165,000	12,194	177,194
2023-2027	345,000	10,213	355,213
Total	$ 1,130,000	$ 111,632	$ 1,241,632

The annual requirements to amortize long-term debt outstanding of component units as of September 30, 2017, are as follows:

Component-Unit Activities

Year Ending September 30,	Certificates of Obligation		Total
	Principal	Interest	Requirements
2018	$ 100,000	$ 100,823	$ 200,823
2019	105,000	99,023	204,023
2020	105,000	96,555	201,555
2021	110,000	93,668	203,668
2022	110,000	90,258	200,258
2023-2027	625,000	385,143	1,010,143
2028-2032	775,000	241,050	1,016,050
2033-2037	555,000	53,675	608,675
Total	$ 2,485,000	$ 1,160,193	$ 3,645,193

The general fund has been used to liquidate compensated absences and capital lease liabilities.

E. Deferred Charges on Refunding

A deferred charge resulting from the issuance of the 2010 and 2015 general obligation refunding bonds has been recorded as a deferred outflow of resources and is being amortized to interest expense over the term of the refunded debt. The net balance outstanding as of September 30, 2017 was $3,358,334. Current year amortization expense totaled $222,757.

F. Interfund Transactions

A summary of interfund receivables and payables balances at September 30, 2017 is as follows:

Receivable fund	Payable fund	Amount
General	Trophy Club Park	$ 31,628
General	Nonmajor	48,732
Debt service	Storm Drainage Utility	24,168
Debt service	Capital Projects	275,776
Nonmajor	Capital Projects	90,007
Nonmajor	General	8,504
Nonmajor	Storm Drainage Utility	12,718
	Total	$ 491,533

Interfund balances resulted from the timing difference between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All balances are expected to be paid in the subsequent year.

Transfers between funds during the year are as follows:

Transfer in	Transfer out	Amount
Capital Projects	General	$ 720,934
Debt Service	Storm Drainage Utility	26,887
General	Storm Drainage Utility	40,000
Debt Service	Capital Projects	7,454
General	Trophy Club Park	20,000
Debt Service	Nonmajor	25,000
General	Nonmajor	3,000
Debt Service	Nonmajor	149,975
	Total	$ 993,250

Transfers were used to reclassify debt service, capital expenditures, and to transfer funds to the general fund for administrative costs.

NOTE 5. OTHER INFORMATION

A. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; injuries to employees; employee health benefits; and other claims of various natures. The Town participates in the Texas Municipal League Intergovernmental Risk Pool (Pool) which provides protection for risks of loss. Premiums are paid to the Pool that retains the risk of loss beyond the Town's policy deductibles. Any losses reported but unsettled or incurred and not reported, are believed to be insignificant to the Town's basic financial statements. For the last three years, there have been no significant reductions of insurance coverage or insurance settlements in excess of insurance coverage.

B. Contingent Liabilities

The Town is involved in lawsuits with other parties from time to time. While the ultimate result of these matters cannot be predicted with certainty, the Town does not expect them to have a materially adverse effect on the basic financial statements.

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts of expenditures which may be disallowed by the grantor cannot be determined at this time although the Town expects such amounts, if any, to be immaterial.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends, including frequency and amount of payouts, and other economic and social factors.

C. Contingencies

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts of expenditures which may be disallowed by the grantor cannot be determined at this time although the Town expects such amounts, if any, to be immaterial.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim

settlement trends, including frequency and amount of payouts, and other economic and social factors.

D. Defined Benefit Pension Plans

Texas Municipal Retirement System

Plan Description

The Town of Trophy Club, Texas participates as one of 872 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmrs.com.

All eligible employees of the Town are required to participate in TMRS.

Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the Town, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the town-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

The plan provisions are adopted by the governing body of the Town, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes.

Plan provisions for the Town were as follows:

	Plan Year 2016	Plan Year 2015
Employee deposit rate	7%	7%
Matching ratio (town to employee)	2 to 1	2 to 1
Years required for vesting	5	5
Service retirement eligibility (expressed as age / years of service)	60/5, 0/20	60/5, 0/20
Updated service credit	100% Repeating Transfers	100% Repeating Transfers
Annuity increase (to retirees)	30% of CPI repeating	30% of CPI repeating

The Town also participates in Social Security.

Employees covered by benefit terms

At the December 31, 2016 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	29
Inactive employees entitled to but not yet receiving benefits	96
Active employees	69
Total	194

Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the Town matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the Town. Under the state law governing TMRS, the contribution rate for each town is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the Town of Trophy Club, Texas were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the Town of Trophy Club, Texas were 12.63% and 13.13% in calendar years 2016 and 2017, respectively. The Town's contributions

to TMRS for the year ended September 30, 2017, were $592,374 and were equal to the required contributions.

Net Pension Liability

The Town's Net Pension Liability (NPL) was measured as of December 31, 2016, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

The Total Pension Liability in the December 31, 2016 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	3.5% to 10.5%, including inflation
Investment Rate of Return	6.75%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%.The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with males rates multiplied by 109% and female rates multiplied by 103% with a 3-year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

Actuarial assumptions used in the December 31, 2016, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period December 31, 2010 through December 31, 2014. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each

major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2017 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Domestic Equity	17.5%	4.55%
International Equity	17.5%	6.35%
Core Fixed Income	10.0%	1.00%
Non-Core Fixed Income	20.0%	4.15%
Real Return	10.0%	4.15%
Real Estate	10.0%	4.75%
Absolute Return	10.0%	4.00%
Private Equity	5.0%	7.75%
Total	100.0%	

Discount Rate

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee contributions will remain at the current 7.0% and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Changes in Net Pension Liability:

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) – (b)
Balance at 12/31/15	**$** 16,324,632	**$** 13,489,345	**$** 2,835,287
Changes for the year:			
Service Cost	795,448	-	795,448
Interest	1,113,555	-	1,113,555
Difference between expected and actual experience	(471,044)	-	(471,044)
Changes of assumptions	-	-	-
Contributions – employer	-	593,840	(593,840)
Contributions – employee	-	329,281	(329,281)

Balance at 12/31/16	**$** 17,312,095	**$** 14,863,274	**$** 2,448,821

Sensitivity of the Net Position Liability to Changes in the Discount Rate

The following presents the net pension liability of the Town, calculated using the discount rate of 6.75%, as well as what the Town's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

1% Decrease 5.75%	Current Single Rate Assumption 6.75%	1% Increase 7.75%
$ 5,226,559	$ 2,448,821	$ 212,548

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately issued TMRS financial report. That report may be obtained on the Internet at www.tmrs.com.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

For the year ended September 30, 2017, the Town recognized a pension expense of $789,950. This amount is included as part of expenses within the functional program activities.

At September 30, 2017, the Town reported deferred outflows and inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred (Inflows) of Resources
Primary Government:		
Difference between projected and actual investment earnings	$ 598,890	$ -
Changes in actuarial assumptions	183,985	-
Differences between expected and actual economic experience	-	(481,757)
Contributions subsequent to the measurement date	433,649	-
Total	$ 1,216,524	$ (481,757)

Deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date of $433,649 will be recognized as a reduction of the net pension liability for the year ending September 30, 2018.

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31:	
2017	$ 109,632
2018	119,211
2019	72,598
2020	(323)
2021	-
Thereafter	-
	$ 301,118

Supplemental Death Benefits Fund

The Town also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The Town elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The Town may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for $7,500; this coverage is an "other postemployment benefit," or OPEB.

The Town offers supplemental death to:	Plan Year 2016	Plan Year 2015
Active employees (yes or no)	Yes	Yes
Retirees (yes or no)	Yes	Yes

The Town contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

The Town's contributions to the TMRS SDBF for the years ended 2017, 2016 and 2015 were $912, $482 and $349, respectively, which equaled the required contributions each year.

Schedule of Contribution Rates
(RETIREE-only portion of the rate)

Plan/ Calendar Year	Annual Required Contribution (Rate)	Actual Contribution Made (Rate)	Percentage of ARC Contributed
2015	0.01%	0.01%	100.0%
2016	0.01%	0.01%	100.0%
2017	0.02%	0.02%	100.0%

E. Other Post-Employment Benefits

Plan Description

The Town provides post-employment medical, dental, and vision benefits (OPEB) for eligible retirees, their spouses and dependents through a single-employer plan with BlueCross BlueShield (BCBS), which covers both active and retired members.

As of September 30, 2017, membership consisted of:

Retirees or beneficiaries currently receiving benefits	-
Active employees	74
Total	74

The three optional benefit levels, BCBS Plan MME04, MME09 and MMH2, are the same for retirees as those afforded to active employees. Regular full-time employees retiring from the Town have the option to continue medical insurance coverage until the retiree becomes eligible for Medicare or is eligible to be covered under another medical plan.

Funding Policy

The benefit levels and contribution rates are approved annually by the Town management and the Town Council as part of the budget process. By the Town not contributing anything toward this plan in advance, the Town employs a pay-as-you-go method through ensuring the annual retiree contributions are equal to the benefits that are paid on behalf of the retirees.

The monthly Retiree health coverage contribution rates for offered benefit levels are as follows:

	High Plan MME04	Standard Plan MME09	HAS Plan MMH2
Single Coverage	$ 488	$ 440	$ 330
Single + Souse	$ 1,302	$ 1,174	$ 881
Single + Children	$ 923	$ 832	$ 625
Single + Family	$ 1,641	$ 1,479	$ 1,111

An irrevocable trust has not been established; therefore, the plan is not accounted for as a trust fund. The plan does not issue a separate financial report.

Annual OPEB Cost and Net OPEB Obligation

The Town's annual OPEB cost is calculated based on the annual required contribution of the Town (ARC), an amount actuarially determined in accordance with the parameters of GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities over a period not to exceed thirty years.

The following table shows the components of the Town's annual OPEB cost for the year, the amount contributed to the plan, and changes in the Town's net OPEB obligation.

Annual required contribution	$	15,320
Interest on OPEB obligation		3,978
Adjustment to annual required contribution		(3,658)
Annual OPEB cost expense		15,640
Contributions made		-
Change in net OPEB obligation		15,640
Net OPEB Obligation-beginning of year		88,400
Net OPEB Obligation-end of year	$	104,040

The Town's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2017 and the two preceding years are as follows:

Fiscal Year	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation Beginning	Net OPEB Obligation Ending
2015	$ 15,680	0.00%	$ 57,136	$ 72,816
2016	$ 15,584	0.00%	$ 72,816	$ 88,400
2017	$ 15,640	0.00%	$ 88,400	104,040

Funded Status and Funding Progress

As of October 1, 2014, the most recent actuarial valuation date, the actuarial accrued liability for benefits was $90,490, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) for fiscal year 2017 was $4,559,563, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 1.98%.

Actuarial valuations of an ongoing program involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Program and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of Program, assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits are based on substantive plan (the plan understood by the employer and plan members) and include the type of benefits in force at the valuation date and the pattern of sharing benefits between the Town and the plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in

actuarial accrued liabilities and actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions include a 4.5% investment rate of return (net of administrative expenses) and an annual healthcare cost trend rate of 8.0% initially, reduced by decrements to an ultimate rate of 4.5% after 7 years. The rate of inflation is assumed to be 3%.

F. PUBLIC UTILITY DISTRICT NO. 1

On May 7, 2007, the Trophy Club Town Council approved Resolution 2007-08 authorizing and providing for the creation of a Public Improvement District. Trophy Club Public Improvement District No.1 consists of approximately 609.68 acres within the corporate limits of the Town of Trophy Club. This District was created in accordance with Chapter 372 of the Texas Local Government Code.

On December 13, 2007 the Trophy Club Town Council approved the issuance and sale of $27,500,000 in bonds, known as Trophy Club Public Improvement No. 1 Special Assessment Revenue Bonds, Series 2007. These bonds were authorized in order to finance the authorized improvements found in the Service and Assessment Plan. An Assessment on each property located in the District will repay the bonds. The Town is acting only as an agent and has no obligation to support payment of the bonds, directly or indirectly.

The Service and Assessment Plan included the following projects: Thoroughfare Improvements, Water Distribution System Improvements, Wastewater Collection System Improvements, Trails and Open Space, Elevated Water Storage, Thoroughfare Landscaping and Irrigation, Screening Walls and Entry Features, Public Parks, Drainage Improvements, and Construction Administration.

In December, 2015, the Town refunded the Public Improvement District No. 1 bonds. Total interest savings for the over 1,400 residences in the Public Improvement District exceeded $16.4M, with a net present value savings of over 33% of the refunded amount.

G. SUBSEQUENT EVENTS

The Town approved a settlement agreement on January 27, 2018 in the amount of $750,000 to be used specifically for Parkland Dedication fees. The Town received $500,000 of the settlement amount in February of 2018, and the remaining $250,000 will be received over the next three to five years.

There were no additional material subsequent events through March 23, 2018, the date the financial statements were issued.

TOWN OF
TROPHY CLUB

STATISTICAL SECTION

This part of the Town of Trophy Club's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents **Page**

Financial Trends 96

These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

Revenue Capacity 109

These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

Debt Capacity 116

These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Demographic and Economic Information 121

These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

Operating Information 124

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT

As of September 30, 2017 (Unaudited)

Governmental Unit	Debt Principal Outstanding	Estimated Percentage Applicable	Estimated Share of Overlapping Debt
Debt repaid with property taxes:			
Denton County	$ 580,525,000	2.11%	$ 12,269,105
Northwest Independent School District	720,832,028	5.36%	38,616,555
Tarrant County	318,245,000	0.06%	187,011
Tarrant County Hospital District	39,500,000	0.06%	23,212
Trophy Club MUD #1	22,550,000	0.61%	138,199
Subtotal, overlapping debt	$ 1,681,652,028		$ 51,234,082
Town of Trophy Club, direct debt	53,678,933	100.00%	53,678,933
Total Direct and Overlapping Debt Principal	$ 1,735,330,961		$ 104,913,015

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the Town. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the Town of Trophy Club. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therfore responsible for repaying the debt, of each overlapping government.
